**INSTRUCTIONS FOR COLLECTION OF DRINKING WATER SAMPLES**

The required bottles are supplied by the lab and contain the appropriate preservatives for each analysis. (Be careful not to rinse out preservative.) Collect samples following the sampling instructions and return to: **Brookside Laboratories, Inc., 200 White Mountain Drive, New Bremen, OH 45869 - ATTN: Environmental Lab.**

**1. Sample Containers and Preservatives**

- |  |   |  |
|--|---|--|
| <b>Test:</b> Lead/Arsenic                      | <b>Container:</b> One 250 ml plastic bottle                                 | <b>Preservative:</b> 5 ml 1:1 HNO <sub>3</sub> |
| <b>Test:</b> Nitrate, Nitrite, Nitrate/Nitrite | <b>Container:</b> One 250 ml plastic bottle                                 | <b>Preservative:</b> NONE                      |
| <b>Test:</b> Total Coliform                    | <b>Container:</b> One 100 ml sterilized plastic bottle w/sodium thiosulfate |  |

**2. Sampling Procedure:** Begin sample collection after you have made sure that the sample is representative of the water source. Flush sampling taps for at least 10 minutes before filling sample bottle. When sampling a well, clean the system by pumping long enough to purge the casing and drop-pipe so it is free of sediment, rust and particles that may have accumulated. When system is purged clean, fill the bottles with water.

**3. Sample Shipment:** Immediately after sampling, label bottles and complete the forms supplied with the bottles. Please pack securely in the shipping container provided by the laboratory and promptly deliver or ship samples to the lab. Keep samples cool (store at 4 degrees C until shipped). Try to mail the same day they were collected.

If you have any questions, please contact the laboratory at (419) 977-2766.

**CAUTION:** Preservatives are either corrosive or toxic, **PLEASE HANDLE WITH CARE!**

**FOR LAB USE ONLY:** Date Received: \_\_\_\_\_ Time: \_\_\_\_\_
